I. General Information

1. China Overview

China, one of world's most ancient civilizations, has a history dating back over 5,000 years. This has led to the country having an extraordinarily rich cultural heritage. As the world's largest developing country, China has seen remarkable progress in its economic and social development. Today's China is politically and socially stable, and economically prosperous, with its people's lives getting better each day.

1.1 Geography

China is located on the east side of Asia and on the west edge of the Pacific Ocean. Covering a land area of about 9.6 million square kilometres, it features over 18,000 kilometres of continental coastline along its eastern and southern edges, and approximately 4.7 million square kilometres of inland and border seas. There are more than 7,600 islands of varying size in the sea area, among which the island of Taiwan, with an area of 35,798 square kilometres, is the largest.

1.2 Climate

Given its sheer size, it is perhaps not surprising that China has a range of climates. Most of the country lies in northern temperate zone that features a mild, continental monsoon

climate and four distinct seasons.

1.3 Population, Ethnicity and Language

Population: 1,411.78 million.

Ethnicity: China is a multi-ethnic country with 56 ethnic groups in total.

Language: There are more than 80 local languages and about 30 Chinese writing systems. Mandarin (also known as putonghua) is the country's national language.

1.4 Religion

Religion: China is a multi-religious country. The main religions are Buddhism, Taoism, Islam, Catholicism and Christianity. Chinese citizens enjoy freedom of religious belief.

1.5 Other

China shares borders with 14 countries and is adjacent to eight countries by sea. The capital city is Beijing. China is comprised of provincial-level administrative divisions that can be further classified into: 4 municipalities directly under the central government, 23 provinces, 5 autonomous regions and 2 Special Administrative Regions.

Currency: The legal currency is renminbi (RMB), with yuan as the basic unit, and jiao and fen as fractions of this basic unit. One yuan is equal to 10 jiao and one jiao equal to 10 fen.

Foreign currency can be freely exchanged in most hotels and banks on the Chinese mainland.

2. Zhejiang Overview

2.1 Location

Zhejiang Province is located in the southern part of the Yangtze River Delta on the southeast coast of China, bordering the East China Sea to the east, Fujian province to the south, Jiangxi and Anhui provinces to the west, and Shanghai municipality and Jiangsu province to the north. The Qiantang River, the largest river in the province, is also called Zhijiang or Zhejiang because of its twists and turns, which is how the name of the province was derived. The capital of the province is Hangzhou.

Being one of the smallest provinces in China, Zhejiang has a land area of 105,500 square kilometres, accounting for 1.1% of the country's total land area. 74.63% of the province's land area is mountainous, 5.05% is covered by water, and 20.32% of its geography is flat. With an ocean area of 260,000 square kilometres, Zhejiang has 2,878 islands that are each greater than 500 square metres in size, and 26 islands that each have an area of more than 10 square kilometres, making it the province with the largest number of islands in the country. One of the

islands, Zhoushan, with an area of 502.65 square kilometres, is the fourth largest island in China.

2.2 Climate

Located on the east coast of China, Zhejiang lies in a transition zone between Eurasia and the Northwest Pacific and has a typical sub-tropical monsoon climate. Zhejiang's climate is characterised by monsoons, four distinct seasons, moderate annual temperatures, ample sunlight and rainfall, significant humidity and a synchronised shift between rainy and hot seasons which has resulted in the province having a diverse climate. At the same time this also gives rise to frequent significant weather events such as typhoons and heavy rains. The average annual temperature in Zhejiang is around 15 to 18°C, with maximum temperatures ranging from 33 to 43°C and minimum temperatures from -2.2 to -17.4°C. The province's average annual rainfall is around 980 to 2,000 mm and average annual sunshine varies from 1,710 to 2,100 hours.

2.3 Population and Language

Population: As of the end of 2020, the province's permanent population is approximately 64.56 million.

Language: In addition to Mandarin, there are also different Chinese dialects such as Wu dialect (including Huizhou dialect),

Min dialect, Hakka dialect, Mandarin dialect, Man dialect and Gan dialect.

3. Hangzhou Overview

The capital city of Zhejiang Province and its economic, cultural, science and educational centre, Hangzhou is one of the central cities in the Yangtze River Delta. A popular City of Scenic Tourism, it also ranks among the first batch of National Historical and Cultural Towns. With a unique charm of the intersection of history and reality, Hangzhou held the G20 Summit in 2016.

3.1 Administrative Divisions and Population

Under the jurisdiction of the City of Hangzhou are 10 urban districts, namely Shangcheng, Gongshu, Xihu, Binjiang, Xiaoshan, Yuhang, Linping, Fuyang, Qiantang and Lin' an, two counties of Tonglu and Chun' an, and one county-level city of Jiande.

The city covers a total area of 16,853.57 square kilometres, of which the urban area takes up 8,289 square kilometres.

By the end of 2020, Hangzhou boasts a permanent resident population of 11.936 million.

3.2 Climate

Located in the north of the southeast coast, Hangzhou

enjoys a subtropical monsoon climate, featuring distinct seasons, ample sunlight and rainfall. The year 2020 registers an average annual temperature of 18.3 °C , an average relative humidity of 76%, a total precipitation of 1,664mm, and an annual sunshine duration of 1619 hours. In Hangzhou, September is a month when summer turns to autumn, which is neither too cold nor too hot. The average temperature in September is 24.6°C, the average wind speed is 2.1m/s, and the monthly precipitation is 113.3mm.

3.3 Tourism Resources

In Hangzhou, hilly or mountainous areas account for 65.6% and forest coverage ranks top among the nation's sub-provincial cities - up to 66.8%. Hangzhou boasts two major national scenic areas (the West Lake and the Qiandao Lake), two national nature reserves (Tianmu Mountain National Nature Reserve and Qingliang Peak National Nature Reserve) and nine national forest parks (including Banshan, Jingshan and other national forest parks). Notably, the West Lake enjoys tremendous popularity in the world for its beautiful scenery, the Xixi National Wetland Park is full of rustic charm, the Grand Canal runs through the city from north to south, the Qiantang River traverses the city, the Qiandao Lake features a wide expanse of mist-covered waters, and the Tianmu Mountain is blessed with verdant ancient trees, to name just a few. The unique landscape of mountains surrounded by water, the fusion of lakes and the city and close proximity to rivers makes Hangzhou the model of a “garden city with hills, lakes and rivers”. Hangzhou is also a National Eco City and a National Ecological Garden City.

3.4 History and Culture

Hangzhou ranks among the seven ancient capitals in China. Archaeological discoveries establish that around 100,000 years

ago, there were productive activities of “Jiande Man” in Lijia Town, Jiande under the jurisdiction of Hangzhou City, and the fossil was assigned to Homo sapiens. In 1936, the Archaeological Ruins of Liangzhu City was discovered in Yuhang District. The Liangzhu culture, emerged around 5,300-4,200 years ago, is hailed by historians as “the dawn of Chinese civilization” and is a sacred site, a formidable testament to the 5,000-year-long Chinese civilization. With the discovery of the Kuahuqiao Site in Xiaoshan District in 2001 and the official naming of the Kuahuqiao Culture in December 2004, the civilization of Hangzhou and even Zhejiang stretches back to the early Neolithic period, or 8,000 years ago. Since the Tang and Song dynasties, historical celebrities such as Bai Juyi and Su Dongpo have left a critical mass of precious cultural heritage in Hangzhou. Chosen by two dynasties - Wuyue Kingdom and Southern Song as capital city, Hangzhou was marvelled by the 13th century Italian traveler Marco Polo who wrote that “Hangzhou was beyond dispute the finest and the noblest in the world”. Hangzhou now boasts three World Cultural Heritage sites, including the West Lake, the Grand Canal (Hangzhou segment) and the Archaeological Ruins of Liangzhu City, as well as four masterpieces of the Intangible Cultural Heritage of

Humanity, namely, “Art of Chinese Seal Engraving”, “Hangluo Silk Weaving Technique and Yuhang Clearwater Traditional Chinese Silk Production Technique”, “Zhejiang Traditional of Guqin” and “The Beginning of Summer Festival in Banshan”. In addition, there are 48 National Key Cultural Relic Units under State Protection including Yue Fei’s Tomb, Liuhe Pagoda and Baochu Pagoda, and 78 museums and memorial halls such as the China National Silk Museum, the China National Tea Museum, and the Southern Song Imperial Kiln Museum. Hangzhou has also gathered a number of famous universities such as Zhejiang University and China Academy of Art.

4.1 Emblem

The Emblem of Hangzhou 2022 is designed based on the “Tides Surging” , a symbol of Hangzhou. Its entirety consists of two parts, the main motif and the lettering. The main motif comprises six elements, namely the fan shape, the Qiantang River and its tidal bore, the track, the Internet icon and the sun as the Emblem of the OCA. The fan shape reflects the cultural

heritage unique to the southern regions of the Yangtze River; the track represents the competition in sports; the Internet icon embodies the strengths of Hangzhou in Internet business; the sun stands for the Emblem of the OCA. The Qiantang River and its tidal bore are the core elements of the Emblem design. They are the spectacle of nature that evokes the vibrancy of sports. They not only depict the picturesque nature of Hangzhou, but also induce the association with human courage in riding the tides. On the Asian level, the surging tides are seen as the unity of the OCA Family, marching forward hand in hand vibrantly.

4.2 Mascot

The mascots of the 19th Asian Games Hangzhou 2022 are a group of robots proclaiming the host city's profound heritage and contemporary vibrancy. The combination - Memories of Jiangnan - derives its name from a poem by Bai Juyi. This great poet of the Tang Dynasty wrote, "When I recall Jiangnan, Hangzhou brings back most of my memories." The name itself speaks volumes about Hangzhou's heritage, scenic splendor and drive for innovation.

The mascots of the 19th Asian Games Hangzhou 2022, transcending time and space, inspire everyone to reach for their dreams. They stand for not only the joy of sports but the

culmination of cultural and economic development, so much so that they agree with the character of Hangzhou and proudly join the ranks of the emblem and slogan of the 19th Asian Games Hangzhou 2022. The three mascots are named Chenchen, Congcong and Lianlian. This trio of robots will act as the envoys of the Olympic spirit, peace and friendship. Together, they are calling out to Asia and the world, inviting everyone to meet in Hangzhou for the Asian Games 2022.
