Both Entry by Number and Entry by Name may be sent via email and subsequently confirmed with stamped original by posting to the following address:

Vietnam SEA Games Organizing Committee (VIESGOC)

Add: 36 Tran Phu Street, Ba Dinh District, Hanoi, Vietnam.

Email: thinhboxing@yahoo.com.vn; olympic@vnn.vn

3. Eligibility

3.1 Only nationals of the country of the NOC shall be qualified to represent the NOC in the Games. All disputes relating to the determination of the country, which an athlete may represent in the SEA Games shall be resolved in accordance with SEAGF Charter and Rules as well as Rule 41 and By-law to Rule 41 of the Olympic Charter (Nationality of competitors).

3.2 The 31st SEA Games Kickboxing competition is reserved only for team representing their National Olympic Committee (NOCs) and National Federation and/or Organization member and affiliated to Asian Kickboxing Confederation in their country.

3.3 To be eligible for participation in the 31st SEA Games, a competitor must comply with the Constitution & Rules of the SEA Games Federation (SEAGF) as well as Rule 40 and the By-law to Rule 40 of the Olympic Charter (Participation in the Games).

3.4 Participating Athletes must be affiliated and members of National Federation and/or Organization members and affiliated to Asian Kickboxing Confederation in their country.

- Each NOC participating in the Kickboxing competition is eligible to enter

the total of 12 athletes [seven (7) male and five (5) female Athletes] in defined categories and is allowed sending only 1 athlete in each event (category).

- Each participating NOC is only allowed to have six (6) to eight (8) staff and team officials.

4. Doping Control

4.1 VIESGOC under the guidance of the SEAGF, will be responsible for the Anti-Doping Programme during the 31st SEA Games. The Anti-Doping Programme will be implemented in accordance with SEAGF Anti-Doping Rules and the World Anti-Doping Code and its relevant International Standards.

4.2 VIESGOC and SEAGF are responsible for providing necessary conditions for Doping testing activities at the 31st SEA Games. Doping Control procedures will be implemented according to WADA's International Standards for Testing and Investigations. Sample analysis will be performed at a WADA-accredited laboratory.

4.3 Doping Control stations will be set up at the competition venue by VIESGOC, where in-competition testing will be conducted. The Test Distribution Plan and criteria for athlete selection for each sport will comply with the Doping Control protocol established by the SEAGF and WADA.

4.4 During the Games, all athletes are subjected to for the Anti-Doping Programme that is organized by VIESGOC and SEAGF. Testing or sampling can be done at any time and place without any notice.

4.5 The WADA 2022 List of Prohibited Substances and Methods is applied in accordance with the WADA Code.

5. Approval of the Technical Handbook

This Technical Handbook was approved by the Asian Kickboxing Confederation.

Any further amendments to the Technical Handbook shall be circulated via e-mail to the NOCs.

6. Covid-19 Health Protocol

During the Games, the Kickboxing Competitions shall adopt the COVID-19 Epidemic control protocols approved by VIESGOC.

Appendix I

Asian Kickboxing Confederation's Medical Guideline

1. PRE-COMPETITION MEDICAL EXAMINATION

1.1 Each Asian Kickboxing Confederation's National Federation/Association is responsible for health of his competitors.

1.2 Competitors must have the official consent of Doctor of medicine affiliated to NOC: fit to fight. The athletes participating in Kickboxing sports, should provide a medical certification signed by authorized Doctor of medicine affiliated to their country NOC (counter signed by NOC), in which it is stated that prior to leaving his/her country the athlete was in good physical condition and not suffering from any injury, infection or disability label to affect his/her capacity to compete in Kickboxing competition.

1.3 The authorized Doctor of medicine affiliated to NOC, among all other examination must proceed the following examines:

- Skin exam: infection, dermatologic disorders, lesions,
- Head and face: eyes, nose, ears. Special attention to recent trauma! (Summary of Dental examination) Extremities, with special attention to the hands: bones, joints skin and nails
- Heart examination (very important!) in consent with the Lausanne Recommendation of the IOC to prevent Sudden Death in Athletes. (See page). (For more information visit website of the IOC)
- Each Competitor, prior to leaving his/her country, must have the ECG diagnostic heart tests confirming that he/she is qualify for Kickboxing sport participation. (The ECG diagnostic heart tests is valid for period of one year).

- Lung exam. (Bronchitis, pneumonia): (these are contraindication for all kinds of competition) Exam of abdomen and genitalia (in male): with the special attention to testicle!

- Neurological examination: facial nerve, index-nose, Romberg etc. If one of these examinations is positive, the athlete is not allowed to compete and cannot be declared fit to fight.

1.4 All necessary examination described above and any other additional examination and all results need to be registered by Doctors of medicine affiliated to NOC conducting the examination and keep in written documents attached to the WAKO ASIA Medical Form.

1.5 In addition, every contestant must have medical examination from the place set by VIESGOC and in addition, every contestant must have medical examination from the place set by VIESGOC and must have medical examination and weigh-in for all contestants on May 6th, 7th 2022, at 10.00-13.00 and on May 9th, 10th, 11th, 13th, 2022 from 07.30 to 09.00.

2. CHECKLIST

Sudden Cardiovascular Death in Sport

LAUSANNE RECOMMENDATIONS

Under the umbrella IOC Medical Commission 10 December 2004

PREPARTICIPATION CARDIOVASCULAR SCREENING

“Sudden death” in sport has to be fully appreciated. The leading cause (more than 90%) of non-traumatic sudden death in athletes is related to pre-existing cardiac abnormality.

For the purpose of this recommendation, sudden cardiovascular death is defined as follows:

Death occurring within one hour of the onset of symptoms in a person without a previously recognized cardiovascular condition that would appear fatal: this excludes cerebrovascular, respiratory, traumatic and drug related causes.

The purpose of this recommendation is to identify, as accurately as possible, athletes at risk in order to advise them accordingly.

Step 1: For all participants at the beginning of competitive activities until age 35 years	Potentially detectable cardiovascular Conditions
<p>Personal history: Questionnaire by examining physician</p> <ul style="list-style-type: none"> - Have you ever fainted or passed out when exercising? - Do you ever have chest tightness? - Does running ever cause chest tightness? - Have you ever had chest tightness, cough, wheezing. Which made it difficult for you to perform in sports? - Have you ever been treated / hospitalized for asthma? <p>Have you ever had a seizure?</p> <ul style="list-style-type: none"> - Have you ever been told that you have epilepsy? - Have you ever been told to give up sports because of health problems? - Have you ever been told you have high blood pressure? - Have you ever been told you have high cholesterol? - Do you have trouble breathing or do you cough during or after activity? 	<p>Any cardiovascular Condition</p>

- Have you ever been dizzy during or after exercise?
 - Have you ever had chest pain during or after exercise?
 - Do you have or have you ever had racing of your heart or skipped heartbeats?
 - Do you get tired more quickly than your friends do during exercise? Have you ever been told you have a heart murmur?
 - Have you ever been told you have a heart arrhythmia?
- Do you have any other history of heart problems?
- Have you had a severe viral infection (for example myocarditis or mononucleosis) within the last month?
 - Have you ever been told you had rheumatic fever?
 - Do you have any allergies?
 - Are you taking any medications at the present time?
- Have you routinely taken any medication in the past two years?

**The recommended investigations should be repeated at least every second year.*

Step 1: For all participants at the beginning of competitive activities until age 35 years	Potentially detectable cardiovascular Conditions
<p>Family history: Questionnaire by examining physician</p> <ul style="list-style-type: none"> - Has anyone in your family less than 50 years old: Died suddenly and unexpectedly? - Been treated for recurrent fainting? Had unexplained seizure problems? - Had unexplained drowning while swimming? - Had unexplained car accident? - Had heart transplantation? 	<p>Inherited cardiomyopathy such as hypertrophic, arrhythmogenic RV, dilated</p> <p>Inherited heart rhythm problem such as cardiac ion channel diseases (long and short QT syndrome, Brugada syndrome)</p>

<ul style="list-style-type: none"> - Had pacemaker or defibrillator implanted? Been treated for irregular heart beat? - Had heart surgery? - Has anyone in your family experienced sudden infant death (cot death)? - Has anyone in your family been told they have Marfan syndrome? 	<p>Len gre disease, catecholaminergic polymorphic VT)</p> <p>Connective tissue disorders</p>
<p>Physical examination:</p> <p>General:</p> <ul style="list-style-type: none"> - Radial and femoral pulses - Marfan stigmata <p>Cardiac auscultation:</p> <ul style="list-style-type: none"> - Rate / rhythm - Murmur: systolic / diastolic - Systolic click <p>Blood pressure:</p>	
<p>Diagnostic tests:</p> <p>12-lead rest ECG: (after the onset of puberty)</p>	<p>Rhythm, conduction or repolarization abnormalities</p>

**The recommended investigations should be repeated at least every second year.*

Step 2: Selected cases with positive personal history, family history of potentially inherited cardiac disease, or positive physical or ECG findings in Step 1 require further evaluation by an age-appropriate cardiac specialist to qualify the athlete for sport participation.

Further evaluation may include trans-thoracic echocardiography, maximal exercise testing, and 24-hour ECG monitoring. Additionally, non-invasive screening of family members may provide valuable information about inherited cardiovascular disease.

Prior to the test, the athlete and, for minors, his/her legal representatives are

entitled to receive the proper information on the nature and objectives of the test, and on the medical consequences in case of positive results, in particular the need for further investigation, as well as the preventive and therapeutic measures. The athlete and his/her legal representatives should also be informed on the financing of the test and the medical follow up.

Special care should be taken to protect the privacy of the athlete. The results should be transmitted solely to the athlete and his/her legal representatives.

SUDDEN CARDIOVASCULAR DEATH IN SPORT LAUSANNE RECOMMENDATIONS ADOPTED

Lausanne, Switzerland, 9 -10 December 2004

List of participants:

Me Denis Oswald, Lawyer, IOC Member, President of FISA, Switzerland

Prof. Jiri Dvorak, FIFA Chief Medical Officer, Schulthess Clinic Zurich, Switzerland
